Albemarle Corporation Selects ISNetworld for Contractor Management

ISN expands Chemical Client Base

DALLAS (May 21, 2012) — ISN is pleased to announce that Albemarle Corporation has selected ISNetworld as the primary contractor management tool for its North American operations. Albemarle will utilize ISNetworld to standardize the verification of their contractors' health, safety and procurement information.

Albemarle is a global production leader in each of its three divisions: Polymer Solutions, Catalysts and Fine Chemistry. With operations in more than 100 countries, Albemarle is able to develop, manufacture and market complex chemicals that are used across a variety of industries including pharmaceuticals, agriculture, refining and electronic goods manufacturing. Albemarle has committed itself to maintaining global sustainability and advancing eco-practices throughout its operations and contractor base.

"ISNetworld will help align the safety expectations for contractors across our sites," said Niomi Krzystowczyk, Division VP – HS&E. "Working with ISN will also help Albemarle maintain a spot as a top performing company in the chemical industry, while focusing on the health and safety of our employees, contractors and surrounding communities."

"Albemarle's enthusiasm for safety and sustainability within their operations sets the stage for achieving and maintaining its contractor management goals," said Bonney Hodges, ISN Chemicals Senior Team Lead. "We look forward to working closely with the Albemarle team throughout the implementation of ISNetworld."

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 42,000 contractors and 250 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
