ISN Welcomes Newfield Exploration Company as New Upstream Client

Newfield selects ISNetworld for Contractor Qualification, Management and Monitoring

DALLAS (September 25, 2012) — ISN, the global resource for connecting corporations with safe, reliable contractors, announced today that Newfield Exploration Company has chosen ISNetworld to manage their contractors and to enhance their contractor safety management system.

Newfield Exploration Company (Newfield) is an energy company headquartered in The Woodlands, Texas. Beginning with an offshore focus in the Gulf of Mexico, Newfield has expanded and diversified domestic operations into the Mid-Continent, Rocky Mountain and onshore Texas regions with international operations in Malaysia and China.

“Newfield strives to identify areas to improve workplace safety for our employees and our contractors,” said Michael Pontiff, Newfield Corporate HSE Manager. “We believe that ISNetworld will allow us to more easily connect with contractors that meet our health, safety and environmental standards reinforcing our goal of zero workplace injuries on Newfield properties.”

Through its online database, ISNetworld, ISN collects safety, procurement and training information from contractors. ISN then verifies the information’s accuracy, allowing Newfield to make informed decisions when hiring contractors.

“Newfield’s commitment to safety is fully evident throughout their implementation of ISNetworld,” said Marie Anderson, Upstream Senior Team Lead, ISN. “We look forward to developing a partnership with Newfield Exploration Company to improve their contractor management process, keeping their internal and contractor employees’ safety a principal objective.”

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 43,000 contractors and 260 Owner Clients. ISN’s subject matter experts review and verify this information to assess the accuracy, relevance and timeliness of the data. Connecting Owner Clients with safe, reliable and sustainable contractors and suppliers around the globe allows these organizations to use ISN as an integral part of their management systems.
